

TOULOUSE FRANCE

This seminar will be taught in French

MODULE 1

**BASIC PHYSIOLOGICAL EXAM
& AUTONOMIC RECOVERY
PROGRAM**

FOUNDATIONS OF NATURAL HEALING

Total Body Modification (TBM) is a time-tested, easy-to-use system of healing that relies primarily on analyzing the patients' and clients' body through kinesiological evaluation of TBM-specific body points and radionically-charged TBM test vials.

In TBM we don't suppress or ignore our patients symptoms, we seek to respond to them in a way that restores the body's ability to heal and maintain itself. Most corrections are made with a simple hand-

held tool, that all therapists can use with confidence. Most often, immediate results are apparent. In TBM we use nutrition to support, but not drive the healing process, therefore significantly reducing the amount of nutritional supplementation a patient/client needs.

In Module 1, the first part of the TBM Basics, we will teach you clinically effective muscle testing, body point location, body point corrections, and our Autonomic Recovery Program.

The Autonomic Recovery Program resets the overall tone of the autonomic nervous system, safely detoxifies the body, reestablishes healthy regulation of blood sugar, and trains patients/clients on how to listen to their body's needs.

MICHAËL V. R. CHAMPEIX, DC

Our policy is that upon registering for a Total Body Modification, Inc. seminar or retreat you commit to arriving on time and staying until the end. Those that do not fully attend will not receive a certificate of completion, will not have it listed on their Provider Listing, and will not receive verification of hours for Continuing Education. Any exception must be approved prior to registration.
